

To search for schools that meet the High Need School Requirement set up the search query like the example below.

Helpful Tips:

- 1) Search by **County**
- 2) Choose a **date** that is a few months behind the current date, there is often a lag for the most current date's information to be available.
- 3) Check the box for **SFA Agency Types** and **Non-Public**
- 4) **Include % Greater Than:** You can search all schools in a district (0%) or limit the search to schools that meet the 50% or more needed for the High Need School requirement.
- 5) Be sure to check "**Include RA's**" to get schools and not just districts.
